Croucher Scholarships for full time doctoral study

The Croucher Foundation offers scholarships tenable in 2019 to outstanding students with first class honours or equivalent degrees, final year undergraduate students, or MPhil students graduating before September 2019.

If you are permanent Hong Kong resident and wish to devote yourself to a period of full-time study in natural sciences, technology or medicine outside Hong Kong then you may be eligible for one of the competitive awards.

A number of special scholarships are offered in partnership with the Universities of Cambridge and Oxford.

Croucher Fellowships for postdoctoral research

Promising young researchers who are Hong Kong permanent residents and obtained doctoral degrees after September 2017, students in the final year of their doctoral studies, or qualified medical doctors are welcome to apply for these full-cost fellowships. Croucher fellowships are tenable outside Hong Kong.

How to apply

You will find full details of the awards available, and the application procedures, on our web site. Your application will include a detailed scientific proposal, so please allow plenty of time to complete the form.

All applications must be submitted online before 5:00 pm on 15th November 2018.
Max Planck-Croucher Postdoctoral Fellowships

The Croucher Foundation and Max Planck Society established a joint postdoctoral fellowship programme tenable in 2019.

Young researchers who are Hong Kong permanent residents and obtained doctoral degrees after September 2017, students in the final year of their doctoral studies, or qualified medical doctors are welcome to apply.

Fellows will be hosted and accommodated at a Max Planck Institute belonging either to the Biology and Medicine Section or to the Chemistry, Physics and Technology Section.

About Max Planck Society

The Max Planck Society is Germany’s most successful research organisation. Since its establishment in 1948, no fewer than 18 Nobel laureates have emerged from the ranks of its scientists, putting it on a par with the best and most prestigious research institutions worldwide.

The currently 83 Max Planck Institutes and facilities conduct basic research in the service of the general public in the natural sciences, life sciences, social sciences, and the humanities. Max Planck Institutes focus on research fields that are particularly innovative, or that are especially demanding in terms of funding or time requirement.
