香 港 中 文 大 學
The Chinese University of Hong Kong

Flexible Admission Arrangement (2024 Entry)

Considering that HKDSE candidates in recent years have faced numerous challenges in their studies and examinations, CUHK will continue to extend flexibility in admission in 2024.

Since the launch of HKDSE in 2012, the University has extended flexibility in considering the admission of specific candidates who have an **outstanding overall performance in the HKDSE examination**, but **who fail to achieve the University minimum entrance requirements by one grade level in a single subject**. Programmes that implement the flexible admission arrangement will holistically consider the academic and non-academic performance of these students, as well as their performance at selection interviews, in deciding whether to offer them admission on an exceptional basis.

Please note that not all programmes at the University implement flexible admission arrangements, related arrangements of specific programmes in 2024 are listed below for reference.
