@ New programme to be introduced in 2025-26.

2025 Expected Score:

- The 2025 Expected Score is calculated with the admission score formula of the respective programme in 2025. Bonus points for the extra HKDSE subjects (if any) are NOT included in the calculation.
- As the admission score formula may vary among programmes, applicants should avoid directly compare the scores between different programmes.
- Achieving the Programme Expected Score is considered to be competitive for the programme concerned in Band A for 2025 entry. However, please note that as admission is not based on public examination results alone, and the overall scores of students applying to each programme vary from year to year, the Expected Score shown is for reference only and should not be used to predict the chance of admission to any programme in any given years.

@ New programme to be introduced in 2025-26.

#### 2025 Expected Score:

- The 2025 Expected Score is calculated with the admission score formula of the respective programme in 2025. Bonus points for the extra HKDSE subjects (if any) are NOT included in the calculation.
- As the admission score formula may vary among programmes, applicants should avoid directly compare the scores between different programmes.
- Achieving the Programme Expected Score is considered to be competitive for the programme concerned in Band A for 2025 entry. However, please note that as admission is not based on public examination results alone, and the overall scores of students applying to each programme vary from year to year, the Expected Score shown is for reference only and should not be used to predict the chance of admission to any programme in any given years.

New programme to be introduced in 2025-26.

2025 Expected Score:

- The 2025 Expected Score is calculated with the admission score formula of the respective programme in 2025. Bonus points for the extra HKDSE subjects (if any) are NOT included in the calculation.
- As the admission score formula may vary among programmes, applicants should avoid directly compare the scores between different programmes.
- Achieving the Programme Expected Score is considered to be competitive for the programme concerned in Band A for 2025 entry. However, please note that as admission is not based on public examination results alone, and the overall scores of students applying to each programme vary from year to year, the Expected Score shown is for reference only and should not be used to predict the chance of admission to any programme in any given years.
